Updates from the Beach United Church

Annual Congregational Meeting of Beach United Church Sunday, February 24, 11.30 a.m. - 12.30 p.m.

This is an opportunity to celebrate the ministry of 2018 and hear about the financial projections and directions for 2019. Your participation is crucial, if BUC is to continue to be a relevant and meaningful presence in the community. Coffee, tea and snacks will be provided.

Ornamental grass brightens our Winter garden

Three dense clumps of Maiden Grass grow on the Wineva Ave. slope and brighten our winter garden. Its botanical name is *Miscanthus sinensis*, native to China and Japan, typically growing 3 or more feet tall.

Their flower heads give more than just visual interest, they add motion. When a breeze blows through them, the plants wave with the wind.

In summer they provide a backdrop for colourful perennials; they can also be combined with evergreens or as a privacy screen.

How to Plant

They can be obtained from local garden centres, or by division. They like bright hot locations but can tolerate partial shade.

Growing Tips

Once established, they are drought tolerant. They can be divided in spring to create more plants.

We leave the flower heads on to be enjoyed through winter. They are cut back almost to ground level in early spring before new growth emerges. Our grasses seed themselves and require thinning in spring.

ACKNOWLEDGEMENT – the presence of these lovely plants in our garden is thanks to Geoff Vernon who, together with Sally Evans, contributed many of the plants when the garden was first established.

Petitions

Handgun Petition

Beach United Church members have been asked to sign a petition to the House of Commons requesting that the Government of Canada implement a ban on the civilian ownership of handguns and military assault weapons. The petition states that these firearms, which are not used by farmers, hunters or indigenous people, fuel gang violence, domestic violence, suicide and undermine community safety. A paper copy of the petition will be available to sign at the church on Sunday. It can also be signed on-line at

Homelessness and Affordable Housing Petition

Shortly before Christmas, 40 people from Beach United signed letters calling on Mayor Tory to ensure that the City of Toronto's 2019 budget includes funding needed to address homelessness and the need for affordable housing in Toronto. On January 16, folks from Beach United joined with others from St. Aidan's Anglican Church and Danforth Mennonite Congregation, to take the message to our new Councillor Brad Bradford.

Too many people in our city can't afford decent housing

- Our children and grandchildren can't find a place to live in the community where they grew up
- Almost 100,000 households are on the waiting list for subsidized housing
- About 8,000 homeless people relied on shelters, Out of the Cold and respite places last night because they do not have a permanent home.

As people of faith we call on our elected leaders to take immediate action to ensure that everyone has a safe and decent place to live.

A note from last year

Last year one of the Syrian refugee families the church has been involved in sponsoring came to skate. They love skating and wanted to have hot chocolate and skate with members of the community who had helped support them since their arrival in Canada. They saw lots of familiar faces. The 3 girls even tried holding a hockey stick. Who knows what is next!

Worship Matters

Vital Signs Sunday Worship 10.30 am

The next worship series has an environmental focus and is entitled "Vital Signs". Each Sunday has a particular plant, animal or insect which will help us to explore what is happening on our earth home. These are called "indicator species" and act as an alert to problems e.g. soil contamination, air or water pollution, habitat fragmentation or climate change.

Indicator species need to be representative of the other organisms in the ecosystem. They can also be a sign of improvement and health of a habitat; a vital sign!
