**Dimmer
Number Light location**

LARGE CHANDELIERS	Lighting on each of the four sides of the large chandeliers can be adjusted separately, however, the controls operate 2 chandeliers at one time.	
Chandeliers 1 & 2 (North Side)	16	Northeast side lights of both chandeliers
	13	Northwest side
	15	Southeast side
	14	Southwest side
Chandeliers 3 & 4 (south Side)	20	Northwest side lights of both chandeliers
	21	Southwest side
	19	Northeast side
	22	Southeast side
All large chandeliers	17	Downward facing halogen lights
	23	Interior fluorescents
SMALL CHANDELIERS	There are 5 rows of 3 chandeliers each, running east and west, in the main part of the room. Rows are numbered north to south - e.g., row 1 is the northernmost row.	
In the main hall	2	Row 1 and Row 5 chandeliers
	3	Row 2 and Row 4 chandeliers
	4	Row 3 chandeliers
	1	Downward facing halogen lights in all main hall chandeliers
In the alcove (east side)	6	Alcove chandeliers (3)
	5	Downward facing halogen lights in alcove chandeliers
TRACK LIGHTS		
Behind glass shields, pointing toward alcove		There are two tracks - on the north and south side of the alcove. Each track has six lights.
	7	Controls three of the lights on the north side track
	8	Controls the other three lights on the north side track
	9	Controls three of the lights on the south side track
	10	Controls the other three lights on the south side track
